Q&A received below:

1. Is there a Scope of work that specifies what Cabling work is required?
 - a. **There is no cabling required.**

2. Under Project Specifications line item 2 it only states to provide a 48 port Cat 6 patch panel with wire manager and a low profile 2u shelf. There is no mention of what the patch panel is to be used (cabling for workstations/WiFi/rack to rack/etc...). What is required to connect to patch panel? Or is this only a provide equipment and mount within the new equipment cabinet?
 - a. **The only wiring required would be to terminate two existing cables coming from APs in the auditorium and then wiring from the patch panel to the switch**

3. Are there site plan drawings with requirements for cabling/racks?
 - a. **There is no cabling required.**

4. Do they have pictures of the existing MDF/IDF and what equipment will need to be moved over to the new Cabinets?
 - a. **As stated in the RFP the District is requiring one new 12u Wall Mount cabinet that will house one (1) CAT6 Patch Panel and one (1) Switch. The new Wall mount will be located to the left of the existing wall mount/rack as seen in the picture provided. There will be no moving of any existing equipment.**
